

DOCKS NEEDED FOR SPORTS CLUB PROJECT

It is that time of year again for the Lake Auman Sports Club's Christmas tree fish habitat project. For several years, we have been placing Christmas trees under docks around Lake Auman providing small fish with protective cover to escape from larger predators. Last year, over forty-six trees were placed under twenty-three docks. This year our goal is to place trees under even more docks but we need additional docks to meet that goal. Please help us by letting your dock be a part of this year's project.

To participate, contact Bill LeGars by telephone (910-687-0206) or email (wlegars@hotmail.com) no later than February 13, 2012.

If you have any questions or require additional information, please let me know. Thanks for your support.
